Air-Bloc 21 in New York

- Air-Bloc 21 and Air-Bloc 21 FR have both been tested for VOC content using the EPA Method 24 test protocol. Both products meet the new lower VOC limits for Contact Bond Adhesives required for sale in **New York** for products manufactured after 12/31/10.
- Air-Bloc 21 Spray Grade does not meet the lower limit and cannot be shipped to New York customers.
- Air-Bloc 21 Spray Grade can still be sold in other OTC states until 5/1/2011 and again from 10/1/11 to 12/31/11. After 12/31/11 no sale of Air Bloc 21 Spray Grade will be permitted in OTC states until the product is reformulated.
