

ARCHITECTURAL NEWSLETTER 2005

TOPIC: NEW PRODUCTS FOR BUILDING
AND CONSTRUCTION DIVISION
*FOR OFFICE CIRCULATION

Dow STYROFOAM* Building and Construction division announces the introduction of the new polyurethane foam in a can to our business sector.

Products that can be used through our business industry would be:

Great Stuff Pro Gaps and Cracks

Minimal expanding single-component polyurethane foam sealant with a straw or a gun applicator.

Available in both 24 oz gun and straw version

Code Approvals: UL Classified NER-645 (alternate fireblock material) CCMC 13074-R

Great Stuff Pro Window & Door

Minimal expanding single-component, low-pressure formulation polyurethane foam sealant.

Proven not to bow windows or doors. Applied with a straw or a gun applicator.

Available in both 20 oz. gun and straw version

Code Approvals: CCMC 13074-R

Great Stuff Pro Wall & Floor Construction Adhesive

Heavy-duty drywall, paneling, sub-floor, and foam panel adhesive. Ideal for ICG and SIP construction. Effective even on damp surfaces.

Code Approvals: ASTM D6464, ASTM E72, ASTM D3498, HUD UM 60A, CA 25-4

Great Stuff Pro Cleaner

Cleaner for dispensing guns and for removing uncured foam.

Polyurethane Roof Adhesive

- Commercial
- Industrial
- Municipal
- High-Rise Residential
- Medical Facilities
- Educational Facilities
- High-rise Condominiums
- Government Buildings
- Manufacturing Facilities
- Correctional Facilities
- Warehouses
- Parking Garages
- Hotels
- Water Treatment Plants

Announcing new Insta-Stik in 20 oz. cans! 12 cans per case/32 cases per pallet. One can is enough to attach one 4'x8' board at 12" O.C.

- 20 oz. can has a unique straw & valve that allows for restartability.
- 15 month shelf life.
- Can be applied at 33° F & rising.

Applications

- Small jobs or repairs
- Install crickets, cants & tapers
- When a batten is required
- For Pull Tests
- Vertical Wall Attachment
- Temporary adhesive on Standing Seam Insulation
- Roof areas where fumes may enter the building
- With fasteners when fastening alone is questionable
- Where roof joins another & there is a change in substrates
- Over electrical or computer rooms where fasteners are not desired
- Repair loose stone coping
